INSTALL R

- **Go to: https://cran.r-project.org/bin/windows/ and click on "install R for the first time"**
- **Download the latest version available. Currently it is R3.6.1**
- **Install**

INSTALL RSTUDIO

- **Go to: https://rstudio.com/products/rstudio/download/ and choose RStudio desktop (Free version)**
- **Download the latest version available depending on your OS. I prefer Windows and the choice is "RStudio 1.2.5001 - Windows 10/8/7 (64-bit)".**
- **Install**

INSTALL RSTUDIO – 32 bit system

- **Older versions of Rstudio is compatible with 32 bit system**
- **Download from here:** https://support.rstudio.com/hc/en-us/articles/206569407-Older-Versions-of-RStudio
- **Install**

THANK YOU !
